Web Application Development (DAW)
Tarragona, Spain

FOCUS

SaaS platforms, internal tools, back-office systems, and reliable business workflows.

PROFILE

Full Stack Developer with experience building SaaS platforms, internal tools, and back-office systems. Skilled in React, Vue.js, Next.js, TypeScript, Laravel, Spring Boot, PHP, Java, MySQL, PostgreSQL, and Supabase. Focused on REST APIs, JWT/OAuth authentication, code refactoring, testing, and clean, scalable software.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Jaestic SL

Tarragona | Oct 2025 - Present

- Refactored and improved Vue.js and Laravel applications, reducing duplicated logic and improving maintainability across frontend, backend, and database-driven workflows.
- Implemented internal services and business features using Laravel, PHP, MySQL, REST APIs, and modular architecture patterns.
- Improved backend security through JWT/OAuth authentication, access control, protected routes, request validation, error handling, and safer API workflows.
- Optimized business logic, database queries, and Eloquent ORM interactions; debugged production issues and improved stability in legacy implementations.

Full Stack Developer

Performance Labs SL

Remote | Jul 2025 - Sep 2025

- Developed features for an AI-powered SaaS platform focused on automating social media content creation and management.
- Built reusable frontend modules with Next.js, React, TypeScript, and Tailwind CSS using typed props and clean application structure.
- Integrated Supabase/PostgreSQL and implemented Vitest tests to validate business logic, improve reliability, and reduce regressions.

Frontend Developer Intern

Goil Security SL

Tarragona | Jul 2024 - Jun 2025

- Developed frontend features for a SaaS back-office platform using React, TypeScript, and Tailwind CSS.
- Built reusable UI components and integrated forms, tables, filters, and client-specific workflows with backend API data flows.
- Improved UX, fixed bugs, and contributed to permission-aware and role-based interface flows.
