LUAR JAÉN SOLÉ

Full Stack Developer | React, TypeScript, Java & Spring Boot

El Vendrell, Tarragona, Spain | +34 644 73 24 77 | luarjs@gmail.com | linkedin.com/in/luar-jaen | luarjs.dev

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building SaaS applications and back-office systems. Builds frontends with **React** and **TypeScript** and RESTful APIs with **Java** and **Spring Boot** on **PostgreSQL** using a layered architecture. Deploys and maintains production applications with **Docker**, **Nginx** and **CI/CD** pipelines (GitHub Actions) on **Linux** servers and VPS. Experience working on an **AI-powered** SaaS platform and daily use of AI-assisted development tools. Focused on Full Stack roles with React and Spring Boot.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Next.js, Vite, Tailwind CSS, HTML5, CSS3, Vue.js, responsive design, reusable components, REST API integration, Vitest

Backend: Java, Spring Boot, RESTful APIs, layered architecture, validation and error handling, authentication and authorization (JWT, OAuth 2.0, RBAC), Laravel, PHP, Eloquent ORM

Databases: PostgreSQL, MySQL, SQL, Supabase, relational data modeling, migrations, query optimization

DevOps & Servers: Docker, CI/CD, GitHub Actions, Linux, Nginx, VPS deployment, Plesk, Git

Artificial Intelligence: AI-powered SaaS product development, AI-assisted development (Claude Code, OpenAI Codex), MCP server configuration

Other: WordPress, WooCommerce, Agile/Scrum, Jira

PROFESSIONAL EXPERIENCE

Full Stack Developer

Jaestic SL | Tarragona, Spain | Oct 2025 - Present

- Develop and maintain full-stack web applications with **React**, Vue.js and Laravel/PHP on MySQL and **RESTful APIs**: business workflows, calendars, document management and role-based access control (RBAC).
- Design and integrate RESTful endpoints with request validation, **JWT** and **OAuth 2.0** authentication and authorization, error handling and external service integrations.
- Administer production **servers**: deploy, monitor and support multiple systems on **Linux**, **Nginx** and Plesk.
- Refactor frontend and backend code, optimize Eloquent ORM queries and troubleshoot production issues.
- Maintain client WordPress/WooCommerce stores: SMTP configuration, PDF invoicing and custom PHP.

Full Stack Developer

Performance Labs SL | Remote | Jul 2025 - Sep 2025

- Developed features for an **AI-powered** SaaS platform that automated social media content creation and management.
- Built reusable, responsive modules with **React**, **Next.js**, **TypeScript** and Tailwind CSS using strongly typed components and a maintainable architecture.
- Implemented server-side logic with Next.js and integrated Supabase/**PostgreSQL** for authentication, data persistence and querying.
- Wrote automated tests with **Vitest** to reduce regressions in frontend components and logic.

Frontend Developer Intern

Goil Security SL | Tarragona, Spain | Jul 2024 - Jun 2025

- Developed features for a SaaS back-office platform with **React**, **TypeScript** and Tailwind CSS, integrating RESTful APIs into forms, tables, filters and client-specific workflows.
- Built reusable components, fixed defects and implemented role- and permission-aware interfaces in an Agile team using Jira.

PROJECTS

Waffled - Restaurant SaaS Platform

Personal project | 2026 | React + Spring Boot | luarjs.dev

- RESTful API built with **Java** and **Spring Boot** following a layered architecture (controller, service, repository), with **PostgreSQL** for relational data persistence.
- Frontend built with **React**, Vite, **TypeScript** and Tailwind CSS to manage reservations, orders, digital menus and restaurant operations.
- Containerized frontend and backend with **Docker**, configured **Nginx** with wildcard subdomains and set up **CI/CD** pipelines with **GitHub Actions** for automated VPS deployments.

EDUCATION & LANGUAGES

Higher Vocational Diploma in Web Application Development (CFGS DAW) | Institut Camí de Mar, Calafell | Sep 2023 - May 2025

Final project: Burgers & Roll, full-stack e-commerce app built with React, Laravel/PHP and MySQL (final grade: 9+/10).

Languages: Spanish (native) | Catalan (native) | English (B2)
